WHY CHOOSE US

Our accolades speak for themselves
3 YEAR CONSECUTIVE BEST CBD PRODUCT AWARDS

We Standout

HempLucid has been a leading provider of premium wellness products since 2016.

Having earned USDA Organic certification, we take pride in being an influential example of compliance and quality in the hemp-derived CBD industry. We are proud to sell CBD, cannabinoids, and other natural products nationwide.

Our Story

The founder and CEO of HempLucid is Chase Hudson. In 2012, while working as a first responder (EMT, firefighter) Chase had a life-changing experience.

His unit received a call alerting them that an elderly terminal cancer patient was in need of immediate assistance. When Chase and his team arrived at the scene, he discovered the patient in the depths of despair. She was emaciated, sick, and sad, and she was surrounded by more than 50 prescription pill bottles. He vividly recalls having to lift her onto a stretcher, and she was frail, bony and sickly, weighing less than 100 lbs.

Chase was profoundly affected. He knew that there must be a better way and decided to dedicate his life to searching for it.

Chase began the journey of developing CBD products in 2014. He combined forces with his friends Tallyn Stratton (Vice President), Saryn Stratton (Formulation Specialist), and Nathan Beckham (Chief Operations Officer), and HempLucid was officially formed in 2016. We have been producing a wide variety of CBD and wellness items ever since.

Our Vision

We envision a community co-creating a reality in which people are consciously engaged in the wellness of their mind, body, and spirit.

- Quality - Best products, best people
- Education - Continuous learning
- Connection - Ourselves and community
- Self Work - Finding balance
- Compassion - For others and their journey
- Revolution - Creative engagement

HempLucid is dedicated to creating the purest, highest quality CBD and wellness products available. Our medicinal hemp strain is grown to Organic standards in Colorado, USA from clones, not seeds. These consistent genetics have been cultivated and proven over the past decade. We have maintained USDA Organic Handler's certification since 2020.

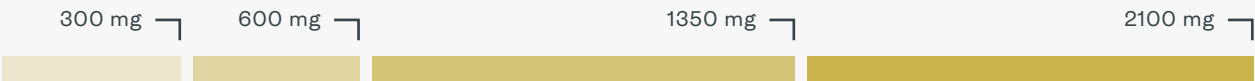

WHAT CHANGED

Our new product line offers greater strengths, easier math, and a sleek new look — but don't worry! We kept the same HempLucid formulas that your customers know and love.

This handy product comparison chart is a quick way to see the differences between our old tinctures and our new strengths.

NEW STRENGTHS (UP TO 30% PRICE DECREASE FOR COMPARABLE STRENGTH)

OLD STRENGTHS

For example, if you've previously stocked our 1000mg (33.3mg per serving), our 1350mg offers 45mg per serving and our 2100mg offers 35mg per half-serving.

STRESS SUPPORT

Natural remedies to relax and soothe through everyday stress

Stress has been deemed the health epidemic of the 21st century. The calming benefits of CBD can help you get through your day with a sense of peace and relaxation. Cannabinoids like CBD stabilize your endocannabinoid system to improve your mood and brighten your day.

IMMUNE SUPPORT

A balance of natural ingredients to support your immune system

Across the country, people are waking up to the benefits of cannabis for personal well-being. CBD, mushrooms, and various herbs have significant rewards for human health and can provide a powerful boost to the immune system. Our products utilize the best ingredients that nature has to offer and give your body essential nutrients for conquering the day!

SLEEP SUPPORT

Use botanical solutions for refreshing, rejuvenating sleep

When combined, CBD and CBN may be the greatest natural sleep aid currently available. Add these products to your nighttime routine to improve the length and quality of your sleep. One of the many celebrated benefits of CBD is the relaxing calm it invites. Add some CBN to the mix and sleep like a baby.

If you’re looking for a sweet spot between the high of delta 9 THC and the steady benefits of CBD, try our Delta 8 THC Gummy Cubes.

A gentler, more subtle cannabinoid than delta 9. Many people use delta 8 for focus, clarity, and anxiety. The side effects of delta 8 are similar to those of delta 9, such as dry mouth and eyes, drowsiness or lethargy, and those typical munchies. With a tasty fruit flavor and a serving of 25 mg delta 8 THC in each piece, these gummies are a delicious way to introduce the mellow vibes of delta 8 THC into your day.

Dying to try the latest and greatest Delta-8 THC products? Our oral strips are truly one-of-a-kind. And with seven strips per pack, you’re set for at least a week.

Oral strips are a superior method of delivering Delta 8 THC because each strip contains an easy, pre-measured serving and dissolves quickly in the mouth. Our individually wrapped strips come in both peach and orange flavor for a quick, tasty way to enjoy Delta 8.

These fast-acting strips offer 15 milligrams of Delta 8 per strip and are easier than capsules or tinctures — all you have to do is put a strip on your tongue and wait for it to dissolve!

Immune Support

Red marine algae boosts health on a cellular level by supporting a protective barrier against contagions. Turkey tail mushrooms support the liver and promote detoxification.

Stress Relief

Lion's mane mushrooms help to reduce inflammation, which is a common stress response. Nettles help to support the adrenal glands and may reduce anxiety.

Sleep Support

Reishi mushrooms may help support a good night's sleep and lessen fatigue, helping you wake up bright-eyed. Blue vervain is calming and may help you fall asleep faster and stay asleep longer.

Focus Boost

For centuries, Buddhist monks have brewed a Lion's Mane mushroom tea to help them focus, study, and meditate with a clear mind.

Stress Relief

The best stress ingredients release your stress at the source. Organic CBD with a D9 THC microdose combined with non-drowsy adaptogenic mushrooms helps destress, naturally.

Sleep Support

Reishi, a functional mushroom, when combined with soothing Lemon Balm and Valerian Root, can support a good night's rest and reduce fatigue, so you wake feeling rested.

What has CBDA got that CBD doesn't? That's a great question. Cannabidiolic acid (CBDA) is the precursor to the more well-known CBD. Essentially, CBDA is the raw acidic form of CBD as it exists in the live cannabis plant, and it's thought to stimulate the body in different ways.

Beyond soothing ingredients like aloe vera, cocoa butter, and calming chamomile, it can provide long-lasting moisture and may offer anti-aging effects. Thicker than a chocolate milkshake and absurdly smooth, this body cream combines the benefits of CBDA with CBD to maximize the entourage effect.
